

Training & Placement Cell — Placement Policy 2026–27

Official Guidelines for Campus Recruitment & Internship Drives

1. Eligibility & Registration

- All registered final-year undergraduate and postgraduate students with no active disciplinary actions are eligible to participate.
- Students must maintain updated academic credentials (CGPA, active backlogs) and verified documents in the T&P; Portal.
- Minimum CGPA criteria and branch restrictions specified by participating companies must be adhered to strictly.

2. Application and Selection Process

- Applying for a job profile signifies commitment to complete all assessment rounds including online tests, technical interviews, and HR rounds.
- Withdrawal from an application is permitted only prior to the shortlist announcement or assessment scheduling.
- Unexcused absence from an assessment round or interview will lead to de-registration from subsequent placement drives.

3. Offer Policy (One-Student-One-Job)

- Once a student receives a verified full-time job offer, they are considered placed and withdrawn from ongoing regular tier drives.
- Upgrading to a 'Dream' or 'Super Dream' tier offer is subject to the specific CTC threshold multiplier approved by the T&P; Board.

4. Code of Conduct & Integrity

- Any misrepresentation of resume details, academic percentages, project experience, or malpractice during online proctored assessments will result in immediate termination of placement registration and referral to the Institute Disciplinary Committee.
